

# IVECO Powerstar

Air Radiators has been the cooling system of choice for IVECO for over 30 years.

## Why?

- By providing Customised, robust design, suited to the varied applications of IVECO Trucks
- And Robust, serviceable design offers significant advantage over competitors.

## What we Offer:

- Unique Australian designs for custom designed trucks to suit Australian conditions.

## Therefore we offered and were awarded due to:

- Short turnaround solution for locally developed Powerstar with ISX 550hp Cummins engine.
