

Case Study – GE Indusstrea

Application

- [Flitmate diesel powered generator](#)

Specification

- Diesel generator manufactured with full coal mine specification compliance
- CAT C15 engine rated at 320kW at 2070rpm

Benefits

- Minesafe compliant cooling package and fan

Solution

- Coalmine specification cooling package
 - Copper/brass engine cooling, all circuits
 - Pin Fin oil cooling
 - PAGAS compliant coal mine impeller

Volume

- 10 units to date
