

Machinist/Fitter

- Full time role
 - Based in Lara
 - Market leading Australian manufacturer
-

Air Radiators is an award-winning Australian Manufacturer, committed to the design and delivery of heat exchange and fan solutions across diverse markets both domestic and international. With significant growth opportunities we are looking for a Machinist/Fitter.

Reporting to the Production Manager, this is a trade qualified role for an experienced, skilled metal machinist/fitter. Duties include but are not limited to fitting, assembly and fabrication of parts, set up machine tools, operate machinery to shape parts. Study drawings and specifications to determine suitable material method and sequence of operations, and machine settings. Operation of manual lathes, vertical borer and radial arm drill.

Key responsibilities include, but are not limited to

- Turning/Machining using small and medium sized manual lathes
- Milling using small and medium sized manual mill
- Operation of horizontal and/or vertical borers
- Operate a radial arm drilling machine
- Read and understand mechanical and workshop drawings
- Setting guides, stops and other controls on machining tools, setting up prescribed cutting and shaping tools and dies in machines and presses
- Fitting and assembling parts into products
- Checking fabricated and assembled parts for accuracy, clearance and fit using precision measuring instruments

Key skills and experience required

Trade Certificate as Fitter Machinist

- Must be competent on manual machines, lathes, vertical borer and milling machines
- Physically fit with good hearing, vision, good coordination and manual dexterity
- Good fault-finding & problem solving skills
- High attention to detail and self-motivated
- Able to work in a team environment
