

## Quality and Process Engineer

- **Secure and permanent role**
  - **Based in Lara**
  - **Market leading Australian manufacturer**
- 

Air Radiators is an award-winning Australian Manufacturer, committed to the design and delivery of Heat Exchange and fan solutions across diverse markets both domestic and international. With significant growth opportunities we are looking for a Quality Engineer.

Reporting to the Quality Manager, the successful candidate will be responsible for maintaining ISO9001 ensuring product meets customer specification and manufactured in compliance with production procedures, regulations, and systems, improving the quality of existing production processes and developing new processes to improve quality and efficiency.

### **Key responsibilities include, but are not limited to**

- Assist in the development and implementation of Quality / Inspection Plans
- Maintain and update Quality system documentation as appropriate
- Audit our system based on ISO 9001:2015 requirements
- Work with internal teams to increase customer satisfaction by improving process and product quality
- Provide technical support, engineering process and quality support
- Developing documents and plans
- Understand and communicate to both Engineering and Operations production equipment capability
- Promote use of appropriate problem solving techniques for effective root cause analysis and successful corrective action
- Drive process improvements to reduce the risk of external escapes. Engage production to proactively identify quality risks and drive improvements

### **Key skills and experience required**

- Bachelor's degree in Mechanical Engineering, Industrial Engineering or similar
- ISO 9001- experience required; ISO45001 and ISO14001- advantageous
- Internal audit experience would be an advantage
- Experience in metals manufacturing or automotive type industry
- Three years of experience in a similar role
- Demonstrated Problem solving and analytical skills
- Ability to plan, organise and project manage

### **Applications**
