

Welder

About Us

For 50 years, Air Radiators has been a top-tier company dedicated to the design and manufacture of heat transfer solutions. We work with major customers in the mining, railway, defence and government sectors, and we have a solid reputation for providing our customers local and globally with quality products and service.

As part of Adrad Holdings Limited, an ASX-listed business with headquarters in Adelaide, we have over 400 employees spread across Australia and Thailand. Operating as a group, we are a market-leading, vertically integrated designer and manufacturer of Original Equipment (OE) industrial radiators and cooling systems for high-end applications that shape the direction of heat transfer solutions in the future. Join us today and build a career you can be proud of.

About the Role

Reporting to the Manufacturing Manager, you will be performing high-quality welding and fabrication work in accordance with engineering drawings, welding codes, and company standards. This role plays a critical part in the manufacture of metal components for a variety of engineering projects.

The successful candidate will be based in Lara your responsibilities are

- Interpret engineering drawings, specifications, and welding symbols
- Perform MIG, TIG, and Stick (ARC) welding on steel, stainless steel, and aluminium
- Fabricate components using cutting, shaping, and assembly techniques
- Weld in flat, vertical, and overhead positions
- Use and maintain tools including grinders, cutters, and torches
- Inspect welds for quality and compliance (AS/NZS 1554 & AS 1210)
- Set up and maintain welding equipment based on job requirements
- Conduct routine equipment inspections and perform preventative maintenance

About You

- Certificate III in Engineering – Fabrication or equivalent trade qualification
- Proficient in MIG, TIG, and Stick welding techniques
- Able to accurately interpret technical drawings and specifications
- Committed to safety practices and attention to detail
- Reliable, with the ability to follow instructions and work independently
- Physically fit and capable of handling workshop conditions
- Willing to undertake a pre-employment medical including drug and alcohol screening
-
