

Production Spray Painter

About Us

For 50 years, Air Radiators has been a top-tier company dedicated to the design and manufacture of heat transfer solutions. We work with major customers in the mining, railway, defence and government sectors, and we have a solid reputation for providing our customers local and globally with quality products and service.

As part of Adrad Holdings Limited, an ASX-listed business with headquarters in Adelaide, we have over 400 employees spread across Australia and Thailand. Operating as a group, we are a market-leading, vertically integrated designer and manufacturer of Original Equipment (OE) industrial radiators and cooling systems for high-end applications that shape the direction of heat transfer solutions in the future. Join us today and build a career you can be proud of.

About the Role

The Production Spray Painter is responsible for preparing and applying paint and coatings to fabricated metal product and components using spray equipment. This role ensures all painted products meet company quality standards, adhere to customer specifications, and comply with safety and environmental regulations. The position plays a critical role in the final presentation and protection of metal products used in various applications.

The successful candidate will be based in Lara your responsibilities are

- Prepare metal surfaces for painting (e.g., cleaning, sanding, masking, degreasing)
- Mix and apply primers, topcoats and specialty coatings using spray guns
- Operate spray booths and maintain correct environmental conditions (e.g., temperature, humidity)
- Perform touch-ups and rework as needed to ensure quality finish
- Inspect painted components for flaws such as runs, sags, or insufficient coverage
- Maintain and clean painting tools, spray guns, and equipment regularly
- Ensure all work is completed according to job orders, technical drawings, and specifications
- Assist with the movement of parts through the production process, including loading/unloading

About You

- Proven experience in a production environment
- Adaptability and Flexibility, with ability to manage changes in workload and priorities
- Computer literacy
- Willing to undertake a pre-employment medical including drug and alcohol screening
