

Assembler

About Us

For over 50 years, Air Radiators has been dedicated to the design and manufacture of innovative heat transfer solutions. We are a world-class, award-winning supplier to Australia's vehicle manufacturing industry and have ISO9001 accreditation. Our customers include major businesses in the transport, mining, railway, defence and power generation sectors, locally and globally.

As part of Adrad Holdings Limited, an ASX-listed business with headquarters in Adelaide, we have over 400 employees spread across Australia and Thailand. Operating as a group, we are a market-leading, vertically integrated designer and manufacturer of Original Equipment (OE) and aftermarket industrial radiators and cooling systems, helping to maintain and shape the direction of heat transfer solutions into the future. Join us today and build a career you can be proud of.

About the Role

We are seeking a reliable and motivated Assembler to join our manufacturing team. This hands-on role involves assembling metal and fabricated components, sub-assemblies, and equipment in accordance with engineering drawings and work instructions.

We are looking for someone who takes pride in producing high-quality work, values safety, and enjoys working as part of a team.

Key Responsibilities

Assembly

- Assemble fabricated metal components in line with technical drawings and SOPs
- Perform mechanical fitting, bolting, alignment and welding preparation
- Read and interpret engineering drawings and work orders
- Maintain accurate production records

Machine/Equipment Operation

- Operate production machinery including overhead cranes and lifting equipment safely and efficiently
- Set up machines and perform changeovers as required
- Troubleshoot basic machinery issues and escalate where required

Safety & Quality

- Complete equipment pre-start checks
- Follow all WHS procedures and company policies
- Complete quality checks to ensure products meet specifications
- Maintain a clean and safe work environment
- Actively participate in continuous improvement initiatives

About You

- Experience in a metal fabrication or manufacturing environment
- Ability to read and interpret technical drawings
- Experience operating hand/power/ pneumatic tools and machinery
- Strong attention to detail
- A solid understanding of workplace health & safety practices
- Good communication skills and a team-focused attitude
- Reliability, punctuality and a strong work ethic
- Willingness to undergo and successfully pass a pre-employment medical assessment (including functional capacity assessment) and Drug and alcohol screening

How to Apply

Please submit your resume and cover letter to recruitment@airrads.com.au with 11027 – Assembler in the subject line.
